

Art Painting Workshop by Brigitte Waldschmidt 13 June 2019, Taunusstein

At 27 July, Mrs Brigitte Waldschmidt welcomed IMA's and guests in her premises, a former laundry in Taunusstein near Wiesbaden. She is an experienced and passionate painter and designer offering courses in non-figurative painting with focus on the interplay of colors. During her studies she learned the tools of design: drawing, composition and the theory of colours. She also made us aware of the different effects of colours in everyday life. Surrounded of all her colourful and inspiring paintings we started our creative work at the tables after she has given us a detailed introduction to various painting techniques, colour types and materials such as paper and painting panels with different surfaces. She asked us to relax, to let the thoughts flow and thus let our imagination run free. It was very interesting for me to see the completely different approaches of the participants and the use of colors and techniques. Especially for assistants, creativity and imagination are very important!

During the next hours we worked intensively with acryl colours and Mrs Waldschmidt assisted us with her advice and ideas. After some hours everybody proudly presented several medium to small pictures of art work! We spontaneously decided to come again for another art painting workshop next year. A great success for Mrs Waldschmidt!

I thank Mrs Waldschmidt for her wonderful and inspiring workshop and the participants for having provided all of us with their delicious food and beverages.

Lilian Helbig

IMA Germany, Head of Regional Group Frankfurt
