

## 18<sup>th</sup> September 2019: Regional event Cologne-Duesseldorf – Lateral thinking & Networking

All participants of our regional event on 18<sup>th</sup> September 2019 at the Hotel Indigo (<https://www.indigoduesseldorf.com>) took a lot of impressions. The boutique hotel with its appropriate concept for the fashion city Dusseldorf was introduced to us after a welcome cocktail and a delicious snack. From the interior, the pleasant atmosphere and the unusual design we were very pleased. A really good address, not only for business travellers.

Afterwards, we had a lot of fun with the lecture for lateral thinkers "Effectively confuse - How to beat with voice and body guarantees everyone to flee" by our trainer and coach Angelika Wiesen ([www.angelikawiesen.de](http://www.angelikawiesen.de)). With their lively presentation and active involvement of the audience, we learned to look at things from a different angle and just "think outside the box" - the content came across perfectly and spontaneous applause in between showed our enthusiasm again and again. Thereafter, and as vividly, the participants - old hands and new faces – discussed and networked in the hotel restaurant and many new contacts were made. It was again a very nice and humorous evening, many thanks to everyone involved.
