

25 July 2020: Summer Special - Painting Workshop

After the visit of the RheinMain CongressCenter and the guided city tour in Wiesbaden in June, the summer special of the regional chapter Frankfurt took place yesterday in Taunusstein. The artist Brigitte Waldschmidt welcomed us for the second time in her premises “Alte Wäscherei” for a creative workshop. As usual she introduced us to the world of colours, painting techniques and materials. For some of us it was already their second participation and they enjoyed continuing their painting studies. The unusual approach to work with the different Ampersand panels was something new for the others. We were very creative and focused on our work, so that all of us painted several, often colourful pictures, some of them on paper.

In the late afternoon we thanked the painter for her friendly care and patient explanations with a small gift I had brought from Schönbrunn in Vienna.

It was a relaxing network meeting, perfect for creativity and resilience. Some have planned further studies in colour theory and encaustic painting as I did. My thanks to the participants, whose interest and commitment made the workshop possible and also very lively.

Wiesbaden, 29 July 2020
